Key Policy Reforms Implemented

1

Pension System Reform

On 18 September 2025, Slovenia's parliament approved a pension reform raising the retirement age and adjusting pension calculations. In the 2nd phase, the statutory age will gradually increase to 62 for long-term contributors and to 67 for others. Pensions will be based on the average of the 35 best years, instead of 24 consecutive years, with changes to indexation and an accrual rate increase to 70%.

In the first phase 2013* the average retirement age has been continuously increasing. The average age of women at retirement in 2024 was 61 years and 8 months, which is 3 years and 2 months higher than in 2013. For men, the average age in 2024 rose to 62 years and 9 months, 1 year and 10 months higher than in 2013. The effects of the 2013 pension reform resulted in the **growth rate of the average number of old-age pensioners decreasing from 4.0 per cent. in 2012 to 2.1 per cent. in 2024⁽¹⁾**

2

Labour Market Reform

Streamlined employment protection, increased labour market flexibility, reduced labour market segmentation, and equalised labour costs for people under 30. Public sector wage reform, effective from 2025, aims to promote transparency and fiscal sustainability, improve pay structures, link rewards to performance, accelerate early-career promotions, and ensure a more gradual increase in the wage bill than without the reform

3

State asset management

Slovenia's updated State Asset Management Strategy, implemented by Slovenian Sovereign Holding, focuses on human rights, social responsibility, gender equality, sustainable energy, infrastructure and forest management, risk control, productivity growth, and stronger corporate governance in state-owned enterprises

4

Strengthened Banking System

Well-capitalized banking system. Stark reduction in non-performing loans ratio since 2013. Nova KBM d.d., NLB d.d. and Abanka d.d. (merged into Nova KBM d.d.) privatized. The new Banking Act adopted in 2021 relating to capital requirements and regulation of financial holding, remuneration and audit power. In November 2023 introduced amendment to the requirement to maintain a systematic risk buffer (syRB), in December a positive neutral CCyB set at 1%

5

Fiscal rule and Council

A constitutionally mandated structural balanced budget has been in force since 2013. The Fiscal Rule bylaw has been in place since July 2015. The Fiscal Council has operated since 2017. A new Fiscal Rule Act, adopted in March 2025, aligns national legislation with the amended EU fiscal governance framework, adopted in April 2024, which changes **the definition of the notion of medium-term fiscal balance enshrined in the Constitution**

* Note: Slovenia implemented a significant pension reform with the enactment of the Pension and Disability Insurance Act (ZPIZ-2) in December 2012, which come into force in January 2013.

Recent Highlights of Executed Funding

- **Strategic samurai bond**, reinforcing presence in **Japan's capital market** (November 2025)
- **Inaugural Sustainability-Linked Bond (SLB)** (June 2025): The bond **supports emissions reduction targets, attracts sustainability-focused investors** reinforcing its role in **Slovenia's sustainable finance strategy**. The inaugural SLB is intended to act as **a firm financial commitment** backing the environmental goals in National Energy and Climate Plan (NECP)
- **Retail Bonds** (March 2025, February 2024): The inaugural retail bond, first issued in February 2024 and this year in March 2025, aimed to **mobilizing retail savings and strengthen the domestic capital market**. It offered investors a tax exemption on up to EUR 1,000 of annual interest from retail bonds and bank deposits, along with a premium over bank deposit rates. Launched amid rising central bank rates and stagnant deposit returns, the bond attracted good demand as a safe alternative for savers. Recognizing this shift, the Treasury Directorate leveraged the opportunity to diversify its investor base and domestic funding. The issuance also promoted financial literacy and encouraged broader retail participation in the capital market
- **30Y SLOREP**: In January 2025, Slovenia successfully issued a EUR 1 billion 30-year benchmark bond. 30Y SLOREP was issued before curve steepening expectations
- **Inaugural digital bond (DLT bond)**: On 25 July 2024, the Republic of Slovenia has issued the inaugural digital bond. The landmark transaction is the first such transaction of an EU sovereign, and one of the first sovereigns worldwide. Issued in the context of the ECB experimental program
