Slovenia Sovereign Rating

Credit Strengths⁽²⁾

- A high level of economic development and income per capita, a strong external position, and EU and EMU membership
- High debt affordability, strong debt management, and high liquidity buffers
- The adopted pension reform strengthens long-term fiscal sustainability and the economy's resilience to the challenges of population ageing

Credit Challenges⁽²⁾

- A more significant reduction in public debt through faster fiscal consolidation or additional structural reforms
- A shortage of labour in key sectors of the economy
- Increasing geopolitical uncertainty

Key Policy Reforms Implemented

1

Pension System Reform

In 2025, Slovenia adopted a pension reform to improve long-term sustainability and pension adequacy. From 2028, the minimum retirement age for those with 40 years of contributions will gradually increase from 60 to 62, and the statutory retirement age from 65 to 67, with both rising by three months per year. These measures, along with changes to pension calculations and indexation, aim to raise the effective retirement age and ensure the system's stability amid demographic ageing. Since 2013*, the average retirement age in Slovenia has steadily increased. In 2025, women retired at an average age of 61 years and 9 months, which is 3 years and 3 months more than in 2013. For men, the average retirement age reached 62 years and 10 months, an increase of 1 year and 11 months compared with 2013. The 2013 pension reform also contributed to a slowdown in the growth of the number of old-age pensioners, with the annual growth rate declining from 2.7 per cent in 2012 to 1.6 per cent in 2025

2

Labour Market Reform

Streamlined employment protection, increased labour market flexibility, reduced labour market segmentation, and equalised labour costs for people under 30. Public sector wage reform, effective from 2025, aims to promote transparency and fiscal sustainability, improve pay structures, link rewards to performance, accelerate early-career promotions, and ensure a more gradual increase in the wage bill than without the reform

3

State asset management

Slovenia's updated State Asset Management Strategy, implemented by Slovenian Sovereign Holding, focuses on human rights, social responsibility, gender equality, sustainable energy, infrastructure and forest management, risk control, productivity growth, and stronger corporate governance in state-owned enterprises

4

Strengthened Banking System

Well-capitalized banking system. Stark reduction in non-performing loans ratio since 2013. Nova KBM d.d., NLB d.d. and Abanka d.d. (merged into Nova KBM d.d.) privatized. The new Banking Act adopted in 2021 relating to capital requirements and regulation of financial holding, remuneration and audit power. In November 2023 introduced amendment to the requirement to maintain a systematic risk buffer (syRB), in December a positive neutral CCyB set at 1%

5

Fiscal rule and Council

A constitutionally mandated structural balanced budget has been in force since 2013. The Fiscal Rule bylaw has been in place since July 2015. The Fiscal Council has operated since 2017. A new Fiscal Rule Act, adopted in March 2025, aligns national legislation with the amended EU fiscal governance framework, adopted in April 2024, which changes **the definition of the notion of medium-term fiscal balance enshrined in the Constitution**

* Note: Slovenia implemented a significant pension reform with the enactment of the Pension and Disability Insurance Act (ZPIZ-2) in December 2012, which come into force in January 2013.

New Government's Policy Agenda 2026–2030

3 key pillars

**Economic Development and Higher Productivity,
Efficient and Lean State, and
Social responsibility**

- Transition to a **highly competitive, innovation-driven** and **entrepreneurial economy**
- **Reduction of the tax and regulatory burden** on labor and capital, alongside **stable public finances**
- **Commitment to fiscal discipline**, with revised budgets designed to preserve long-term sustainability and remain within fiscal rules
- **Decentralization of the state** and a **stronger role for regions**
- **Reform of public systems** (healthcare, judiciary, public administration)
- **Housing policy** and **family support** as a response to demographic challenges
- Strong emphasis on **energy sovereignty** (nuclear energy + renewables)
- **Zero tolerance for corruption** and **greater institutional efficiency**

New Government's Policy Cont.

Goals	Envisaged actions
Pro-growth and business-oriented	▪ Strong focus on higher productivity, innovation, and competitiveness ▪ Clear intent to position Slovenia as a high-value, knowledge-driven economy ▪ Emphasis on private-sector-led growth and entrepreneurship
Tax Relief and Incentive-based Fiscal Framework	▪ Lower tax burden on labour and capital (income tax reform, development cap) ▪ Expanded tax incentives for R&D, digitalisation, and investment ▪ No major new taxes without offsetting reductions, ensuring a predictable tax regime
Strong Support for Investment and Capital Markets	▪ Incentives for venture capital, start-ups, and high-growth firms ▪ Improvements to equity compensation (stock options) and capital gains taxation ▪ Initiatives to develop domestic capital markets and improve financing access
Deregulation and Administrative Simplification	▪ Aggressive debureaucratisation and digitalisation (e-government, AI use) ▪ “1 IN – 2 OUT” rule for regulations ▪ Faster permitting and ‘silence = approval’ principle ▪ Significant reduction in regulatory friction and time to market

New Government's Policy Cont.

Goals	Envisaged actions
Infrastructure and Energy as Strategic Priorities	▪ Acceleration of transport and logistics infrastructure projects ▪ Strong support for nuclear energy (JEK2) and a diversified energy mix ▪ Focus on energy security and price stability
Labour Market Reform and Talent Strategy	▪ Flexibility through the “flexicurity” model (flexible and secure employment) ▪ Simplified hiring of foreign skilled workers ▪ Investment in skills, digital competencies, and education-business links
Healthcare and Public Sector Efficiency Reforms	▪ Measures to reduce waiting times and improve service delivery ▪ Integration of public and private providers under a regulated framework ▪ Broad drive for cost efficiency and digital transformation
Real Estate and Housing Market Activation	▪ Incentives for long-term rental supply and construction ▪ Activation of idle land and housing stock ▪ State-backed housing schemes for young buyers

Recent Highlights of Executed Funding

- The debut **Floating Rate Bond** (May 2026) responds to demand from domestic investors for government financial instruments with floating interest rates and further contributes to diversifying the sources of financing for the state budget
- Debut **panda bond** (March 2026), reinforcing presence **in China's capital market**
- Strategic **samurai bonds** issued in 2024 and 2025, reinforcing presence in **Japan's capital market**
- **Inaugural Sustainability-Linked Bond (SLB)** (June 2025): This bond **supports emissions reduction targets and attracts sustainability-focused investors** reinforcing its role in **Slovenia's sustainable finance strategy**. The inaugural SLB is intended as **a firm financial commitment** backing the environmental goals in the National Energy and Climate Plan (NECP)
- **Retail programme** consists of **3Y retail bonds** issued in 2024, 2025, and 2026, with volumes of EUR 261 million, EUR 250 million, and EUR 225 million, totalling EUR 736 million. Retail investors also participate in the Republic of Slovenia's Treasury Bill programme. The initiative supports the development of Slovenia's debt capital market, broadens the domestic investor base, and promotes financial literacy
- **30Y SLOREP**: In January 2025, Slovenia successfully issued a EUR 1 billion 30-year benchmark bond. The 30Y SLOREP was issued before curve steepening expectations
- **Inaugural digital bond (DLT bond)**: On 25 July 2024, the Republic of Slovenia issued its inaugural digital bond. This landmark transaction is the first of its kind an EU sovereign, and among the first by sovereigns worldwide. Issued in the context of the ECB experimental programme

Key Takeaways

- **Slovenia returns to AA rating**
- **EUR 5.25 billion gross borrowing needs are projected for the 2026 fiscal year.** The plan is to meet this by issuing T-bills and longer-term financing instruments
- **In 2026, Slovenia already secured EUR 3.9 billion in financing through diversified instruments,** including a 10-year euro bond, its first renminbi-denominated panda bond, a third 3-year retail bond, and a 7-year floating rate bond
- **General government debt continues to decline,** reaching 65.7% of GDP in 2025, and is estimated at around 65% of GDP in 2026. Strong liquidity reserves are to be used to reduce gross debt to 60% of GDP in the medium term
- **Institutionally well diversified investor base**
- **The Slovenian bond market,** due to measures taken to improve secondary market liquidity, is perceived as **adequately liquid** compared to bond markets of similar size
- **Smooth redemption profile**
- **ESG committed and DLT focused**
- **Slovenia entered 2026 with stronger growth momentum than the European aggregate.** In Q12026, Slovenia's GDP on y-o-y basis grew by 3.1% compared with EA-21 (0.3%) and the EU-27 (0.7%). **In 2025, real GDP growth moderated to 1.1 % (0.9% seasonally adjusted) compared to 2024.**
- **The banking sector remained stable,** with a sound **capital position** and solid liquidity
