Slovenia Sovereign Rating

Credit Strengths⁽²⁾

- A high level of economic development and income per capita, a strong external position, and EU and EMU membership
- High debt affordability, strong debt management, and high liquidity buffers
- The adopted pension reform strengthens long-term fiscal sustainability and the economy's resilience to the challenges of population ageing

Credit Challenges⁽²⁾

- A more significant reduction in public debt through faster fiscal consolidation or additional structural reforms
- A shortage of labour in key sectors of the economy
- Increasing geopolitical uncertainty

Key Policy Reforms Implemented

1
Pension System Reform

In 2025, Slovenia adopted a pension reform to improve long-term sustainability and pension adequacy. From 2028, the minimum retirement age for those with 40 years of contributions will gradually increase from 60 to 62, and the statutory retirement age from 65 to 67, with both rising by three months per year. These measures, along with changes to pension calculations and indexation, aim to raise the effective retirement age and ensure the system's stability amid demographic ageing. Since 2013*, the average retirement age in Slovenia has steadily increased. In 2025, women retired at an average age of 61 years and 9 months, which is 3 years and 3 months more than in 2013. For men, the average retirement age reached 62 years and 10 months, an increase of 1 year and 11 months compared with 2013. The 2013 pension reform also contributed to a slowdown in the growth of the number of old-age pensioners, with the annual growth rate declining from 2.7 per cent in 2012 to 1.6 per cent in 2025

2
Labour Market Reform

Streamlined employment protection, increased labour market flexibility, reduced labour market segmentation, and equalised labour costs for people under 30. Public sector wage reform, effective from 2025, aims to promote transparency and fiscal sustainability, improve pay structures, link rewards to performance, accelerate early-career promotions, and ensure a more gradual increase in the wage bill than without the reform

3
State asset management

Slovenia's updated State Asset Management Strategy, implemented by Slovenian Sovereign Holding, focuses on human rights, social responsibility, gender equality, sustainable energy, infrastructure and forest management, risk control, productivity growth, and stronger corporate governance in state-owned enterprises

4
Strengthened Banking System

Well-capitalized banking system. Stark reduction in non-performing loans ratio since 2013. Nova KBM d.d., NLB d.d. and Abanka d.d. (merged into Nova KBM d.d.) privatized. The new Banking Act adopted in 2021 relating to capital requirements and regulation of financial holding, remuneration and audit power. In November 2023 introduced amendment to the requirement to maintain a systematic risk buffer (syRB), in December a positive neutral CCyB set at 1%

5
Fiscal rule and Council

A constitutionally mandated structural balanced budget has been in force since 2013. The Fiscal Rule bylaw has been in place since July 2015. The Fiscal Council has operated since 2017. A new Fiscal Rule Act, adopted in March 2025, aligns national legislation with the amended EU fiscal governance framework, adopted in April 2024, which changes **the definition of the notion of medium-term fiscal balance enshrined in the Constitution**

* Note: Slovenia implemented a significant pension reform with the enactment of the Pension and Disability Insurance Act (ZPIZ-2) in December 2012, which come into force in January 2013.

State Budget Debt Profile Key Servicing Figures

Key Treasury Objectives

- **Key focus of the state treasury was during the low yield environment to extend the duration of the debt portfolio, managing roll-over risk, while reducing implicit interest rate at the same time**
- Extended modified duration of the debt portfolio (from 4.7 yrs in 2014 to 7.7 yrs in 2026) while at the same time implicit interest rate was reduced (from 4.4% in 2014 to 1.9% in 2026)
- Since 2014 the long-term financing cost of the state budget has been reduced significantly. Interest bill of 2.9% GDP in 2014 reduced to 1.1% GDP in 2024 and 2025
- costs minus risks \neq deficit funding

Recent Highlights of Executed Funding

- **Debut panda bond** (March 2026), reinforcing presence **in China's capital market**
- **Strategic samurai bonds** issued in 2024 and 2025, reinforcing presence in **Japan's capital market**
- **Inaugural Sustainability-Linked Bond (SLB)** (June 2025): This bond **supports emissions reduction targets and attracts sustainability-focused investors** reinforcing its role in **Slovenia's sustainable finance strategy**. The inaugural SLB is intended as **a firm financial commitment** backing the environmental goals in the National Energy and Climate Plan (NECP)
- **Retail programme** consists of **3Y retail bonds** issued in 2024, 2025, and 2026, with volumes of EUR 261 million, EUR 250 million, and EUR 225 million, totalling EUR 736 million. Retail investors also participate in the Republic of Slovenia's Treasury Bill programme. The initiative supports the development of Slovenia's debt capital market, broadens the domestic investor base, and promotes financial literacy
- **30Y SLOREP**: In January 2025, Slovenia successfully issued a EUR 1 billion 30-year benchmark bond. The 30Y SLOREP was issued before curve steepening expectations
- **Inaugural digital bond (DLT bond)**: On 25 July 2024, the Republic of Slovenia issued its inaugural digital bond. This landmark transaction is the first of its kind an EU sovereign, and among the first by sovereigns worldwide. Issued in the context of the ECB experimental programme

Key Takeaways

- **Slovenia returns to AA rating; multiple agencies upgrade outlooks and ratings in 2025.** On 27 February 2026, the credit rating agency **Moody's upgraded** Slovenia's rating from **A3 to A2** and assigned it a stable outlook
- **EUR 5.25 billion gross borrowing needs are projected for the 2026 fiscal year.** The plan is to meet this by issuing T-bills and longer-term financing instruments
- In 2026, Slovenia had already provided EUR 3.48 billion in financing by issuing and tapping a 10-year euro bond, entering the Chinese market with its first renminbi-denominated panda bond, and issuing its third 3-year retail bond on the domestic market
- **General government debt continues to decline**, reaching 65.7% of GDP in 2025, and is estimated at around 65% of GDP in 2026. Strong liquidity reserves are to be used to reduce gross debt to 60% of GDP in the medium term

- Institutionally **well diversified investor base**
- **The Slovenian bond market**, due to measures taken to improve secondary market liquidity, is perceived as **adequately liquid** compared to bond markets of similar size
- Smooth **redemption profile**

- **In 2025, real GDP growth moderated to 1.1 % (0.9% seasonally adjusted) compared to 2024.** Slovenia's economy grew by 1.7% in 2024, outperforming the EA-20 (0.9%) and the EU-27 (1.0%)
- **The banking sector remained stable**, with a sound **capital position** and solid liquidity
