- Evropska noč raziskovalcev

MSCA

Marie Skłodowska-Curie Actions

*Developing talents,
advancing research*

Mreža NKO

Obzorje Evropa

MSCA je namenjen:

- **Doktorskim** in
- **podoktorskim** raziskovalkam in raziskovalcem

- **Uveljavljenim** raziskovalkam, raziskovalcem in osebju

- **Univerzam/raziskovalnim inštitutom**

- **Podjetjem** in drugim **ne-akademske** institucijam

Opis programa MSCA

- Spodbujanje znanstvene odličnosti v okviru **mednarodne in medsektorske mobilnosti** pri **doktorskem** izobraževanju, **podoktorskem** raziskovanju in **izmenjavi osebja** v RR.
- Za MSCA razpise je značilno, da je **izbor teme** raziskovanja prepuščen raziskovalkam in raziskovalcem ter mora prispevati k **odlični znanosti** in hkrati imeti pomemben **vpliv** na raziskovalne institucije, družbo, Evropo in globalni svet.

Welcome to MSCA matchmaking platform

1:1 meetings for your future MSCA proposals, inspiring sessions, informative workshops and more.

The MSCA matchmaking platform brings together fellows, companies, supervisors, NGOs and Academic Institutions from a large number of European countries and beyond. This is a unique opportunity to generate new contacts and future successful projects in the upcoming MSCA calls for 2022.

Using this platform, you will be able to publish your researchers' profile, your company profile and offer your hosting arrangements to attract talent or participate in Doctoral Networks and Staff Exchanges Proposals.

1. MSCA mreže doktorskega študija

- Mreže doktorskega študija so namenjene študiju in raziskovanju **doktorskih kandidatov**, da se bodo lahko soočali s sedanjimi in prihodnjimi **izzivi** ter bodo sposobni pretvarjati ideje in znanje v izdelke ter storitve za gospodarsko in družbeno **korist**.
- MSCA mreže doktorskega študija morajo povečati **atraktivnost** in **odličnost** doktorskega izobraževanja v Evropi. Doktorske kandidate morajo opremiti s pravo kombinacijo **raziskovalnih znanj** in **prenosljivih spretnosti** za razvoj njihovih **karier** in **zaposljivosti** tako v **akademskem** kot **ne-akademskem** sektorju, in sicer z **mednarodno**, **interdisciplinarno** in **medsektorsko** mobilnostjo ter **ustvarjalnostjo**.

Brussels, 27/06/2011

Principles for Innovative Doctoral Training

Research Excellence

Striving for excellent research is fundamental to all doctoral education and from this all other elements flow. Academic standards set via peer review procedures and research environments representing a critical mass are required. The new academic generation should be trained to become creative, critical and autonomous intellectual risk takers, pushing the boundaries of frontier research.

Attractive Institutional Environment

Doctoral candidates should find good working conditions to empower them to become independent researchers taking responsibility at an early stage for the scope, direction and progress of their project. These should include career development opportunities, in line with the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers.²

Interdisciplinary Research Options

Doctoral training must be embedded in an open research environment and culture to ensure that any appropriate opportunities for cross-fertilisation between disciplines can foster the necessary breadth and interdisciplinary approach.

Exposure to industry and other relevant employment sectors

The term 'industry' is used in the widest sense, including all fields of future workplaces and public engagement, from industry to business, government, NGO's, charities and cultural institutions (e.g. musea). This can include placements during research training; shared funding; involvement of non-academics from relevant industry in informing/delivering teaching and supervision; promoting financial contribution of the relevant industry to doctoral programmes; fostering alumni networks that can support the candidate (for example mentoring schemes) and the programme, and a wide array of people/technology/knowledge transfer activities.³

International networking

Doctoral training should provide opportunities for international networking, i.e. through collaborative research, co-tutelle, dual and joint degrees. Mobility should be encouraged, be it through conferences, short research visits and secondments or longer stays abroad.

Transferable skills training

"Transferable skills are skills learned in one context (for example research) that are useful in another (for example future employment whether that is in research, business etc). They enable subject- and research-related skills to be applied and developed effectively. Transferable skills may be acquired through training or through work experience".⁴ It is essential to ensure that enough researchers have the skills demanded by the knowledge based economy. Examples include communication, teamwork, entrepreneurship, project management, IPR, ethics, standardisation etc.

Business should also be more involved in curricula development and doctoral training so that skills better match industry needs, building on the work of the University Business Forum⁵ and the outcomes of the EUA DOC-CAREERS project.⁶ There are good examples of interdisciplinary approaches in universities bringing together skills ranging from research to financial and business skills and from creativity and design to intercultural skills.

Quality Assurance

The accountability procedures must be established on the research base of doctoral education and for that reason, they should be developed separately from the quality assurance in the first and second cycle. The goal of quality assurance in doctoral education should be to enhance the quality of the research environment as well as promoting transparent and accountable procedures for topics such as admission, supervision, awarding the doctorate degree and career development. It is important to stress that this is not about the quality assurance of the PhD itself rather the process or life cycle, from recruitment to graduation.

The common approach should provide a framework of reference, whilst preserving flexibility and autonomy for institutions and doctoral candidates.

¹ Extract from "Report of Mapping Exercise on Doctoral Training in Europe "Towards a common approach" of 27 June 2011(final), adopted by the ERA Steering Group on Human Resources and Mobility. The Principles were defined with the help of experts from university associations; industry and funding organisations. They reflect the Salzburg Principles of EUA, good practice in Member States and the Marie Curie experience. The Principles have been endorsed in the Council conclusions on the modernisation of higher education, Brussels, 28 and 29 November 2011.

MSCA: RAZVOJ RAZISKOVALNIH KARIER

- ❖ **Evropska vizija in strategija** podpore razvoju profesionalnih karier za raziskovalce.
- ❖ MSCA: **izobraževanje** raziskovalcev o znanstvenih in drugih profesionalnih veščinah.
- ❖ Zagotoviti najboljše pogoje za pridobitev **talentov**.
- ❖ Upravičenci Obzorja Evropa bodo spoštovali, uresničevali in sledili **politiko človeških virov**. *Strategija človeških virov za raziskovalce (HRS4R)* pomaga raziskovalnim institucijam pri uresničevanju *Evropske listine za raziskovalce in Kodeksu ravnanja pri zaposlovanju raziskovalcev* (Charter & Code).

Why Doctoral Networks?

- Respond to **well-identified needs** in various R&I areas (bottom-up);
- Expose the researchers to the **academic and non-academic sectors**;
- Offer training in research-related, as well as competences relevant for **innovation and long-term employability**;
- Focus on **research and transferable skills**, (inter-sectoral secondments), **career development plan, supervision, internationalisation/attractiveness**;

What are Doctoral Networks?

- Multi-beneficiaries Actions to set up **doctoral programmes**, including
 - **Doctoral Networks (standard)**: Training in academia and/or industry
 - **Industrial Doctorates**: Training in academia and industry, Joint supervision
 - **Joint Doctorates**: Joint collaborations leading to a joint/multiple doctoral degree, Joint selection and supervision; pre-agreement for joint degrees required

Doctoral Networks: who can apply?

Consortia of :

- Universities;
- Research institutions and research infrastructures;
- Businesses including SMEs;
- Other socio-economic actors.

Understanding the diversity of viruses within key carrot crops and their variation across Europe

Ferran Salavert / Newcastle University

[Project Description](#)

[Researcher CV](#)

[Logbook](#)

[Contact](#)

Project description

My project will try to understand the existent virus diversity within carrot crops and the consequences of their infection in terms of crop damage that leads to wastage; ultimately aiming to scale up the methods for large virome studies to increase capacity for generating field relevant understanding of presence and diversity of viruses within cropping systems, including crops and surrounding environments containing potential weed and vector reservoirs. At the moment, there is a lack of knowledge about the flow of viruses between carrot crops and wild umbelliferous species, as well as which vectors are responsible for their transmission (most probably aphids).

Project goals

Essentially, this project will reveal the extent of the ecological network between viruses, hosts and vectors. For this purpose, representative samples of the different elements in the system will be collected and using the most appropriate NGS approaches and protocols, identify and characterise the presence of new and known viruses. Another relevant aspect will be the characterization of the newly found viruses: (i) full genome and molecular characterization, (ii) epidemiological characterization and (iii) biological characterization. With the establishment of standard protocols for the characterisation of new viruses and their genome sequences, this project will aim to answer several hypotheses:

- Which is the relationship of the virus presence with the observed symptoms?
- Which effect are viruses having over the production yields?
- Which transmission mechanisms do they use?
- Which is their level of pathogenicity?
- Are they beneficial or neutral to nature?

2. MSCA podoktorske štipendije

MSCA podoktorske štipendije

- Vrsta: **evropska** (12-24 mesecev + 6 mesecev za ne-akademski sektor) in **globalna** (24-36 mesecev; 12-24 za „outgoing“ in 12 za vrnitev v EU) štipendija

- Omejitev: do 8 let po pridobitvi doktorata (razen za „integration“) ter omejitev ponovne prijave pod 70% evalvacijskih točk

MSCA Postdoctoral Fellowships: Features

Duration

- **European Fellowships:** 12-24 months
- **Global Fellowships:** 24-36 months (12-24 outgoing phase & 12 months mandatory return phase in Europe)

Optional schemes

- **Secondments worldwide** up to 1/3 of the fellowship duration—(**novelty**: worldwide secondments)
- Optional **additional placement of up to 6 months** in a non-academic European organization (**novelty**) at the end of the fellowship applicable to both European and Global PF
- **Widening activities:** “ERA Fellowships” will be aligned with the MSCA Postdoctoral Fellowships call

Financiranje MSCA podoktorskih štipendij

MSCA Postdoctoral Fellowships	Contributions for the recruited researcher per person-month					Institutional unit contributions per person-month	
	Living allowance	Mobility allowance	Family allowance (if applicable)	Long- term leave allowance (if applicable)	Special needs allowance (if applicable)	Research, training and networking contribution	Management and indirect contribution
	EUR 5 080	EUR 600	EUR 660	EUR 5 680 x % covered by the beneficiary	requested unit ⁸⁹ x (1/number of months)	EUR 1 000	EUR 650

A country correction coefficient applies to the living allowance in order to ensure equal treatment and purchasing power parity for all researchers⁹⁰. For European Postdoctoral Fellowships, this coefficient is the one applicable to the country of the beneficiary. For the Global Postdoctoral Fellowships two different country correction coefficients apply:

★ SEAL OF ★
EXCELLENCE

≥ 85 %

What is the Seal of Excellence?

The Seal of Excellence is a quality label awarded to project proposals submitted to Horizon 2020, the EU's research and innovation funding programme, to help these proposals find alternative funding.

Projects which were judged to deserve funding but did not get it due to budget limits receive the Seal of Excellence.

It recognises the value of the proposal and helps other funding bodies take advantage of the Horizon 2020 evaluation process.

It is awarded to proposals which applied under

- Cilji: mednarodno, medsektorsko in interdisciplinarno sodelovanje **raziskovalnega in drugega osebja** ter izmenjava znanja;
- prožen **kolaborativen RR projekt** (4 leta), 3 partnerji v 3 državah (povprečno 9-10 partnerjev)
- Poudarek: dodana vrednost **sodelovanja**

MSCA Staff Exchanges

- **Duration**

- 4 years for project implementation
- Maximum 360 person-months per project (novelty)
- Secondments: 1-12 months per staff
- Interdisciplinary secondments in the same sector possible within Europe (max 1/3 of project's person-months) (novelty)

This project has received funding from the European Union's Horizon 2020 Research and Innovation programme under the Marie Skłodowska-Curie grant agreement No. 734824.

MSCA Staff Exchanges

Outcome for staff members

Outcome for organisations

Financiranje MSCA izmenjave osebjja

MSCA Staff Exchanges	Contributions for seconded staff members per person-month		Institutional contributions per person-month	
	Top-up allowance	Special needs allowance (if applicable)	Research, training and networking contribution	Management and indirect contribution
	EUR 2 300	requested unit ¹⁰⁰ x (1/number of months)	EUR 1 300	EUR 1 000

Trenutni in predvideni datumi MSCA razpisov v 2022 in 2023

Vrsta MSCA razpisa	Objava razpisa	Zaključek razpisa	Vrednost razpisa v mio EUR
MSCA Doctoral Networks 2022	12.5.2022	15.11.2022	428,28
MSCA Staff Exchanges 2022	6.10.2022	8.3.2023	77,5
MSCA COFUND 2022	11.10.2022	9.2.2023	95
MSCA Postdoctoral Fellowships 2023	12.4.2023	13.9.2023	260,47
MSCA Doctoral Networks 2023	30.5.2023	28.11.2023	434,8
European Researchers' Night and Researchers at Schools 2024-2025	20.6.2023	25.10.2023	15,42
MSCA Staff Exchanges 2023	5.10.2023	28.2.2024	78,5
MSCA COFUND 2023	10.10.2023	8.2.2024	96,57

4. MSCA COFUND

- Sofinanciranje (akademiških) organizacij za izvedbo **doktorskih ali podoktorskih študijskih programov**.
- So-financiranje je namenjeno **novim** ali že **obstoječim** programom za izboljšanje mednarodnega, medsektorskega in interdisciplinarnega študija ter mobilnosti študentov.
- Projekt COFUND, ki lahko traja **do pet let**, mora izboljšati **kakovost** doktorskega študija oziroma raziskovalk in raziskovalcev, tako na regionalni in nacionalni kot tudi na mednarodni ravni.

MSCA COFUND

- **Target groups**
 - **Doctoral candidates**, i.e. researchers without a doctoral degree at the deadline of the co-funded programme's call; mandatory enrolment in a doctoral programme
 - **Postdoctoral researchers**, i.e. researchers with a doctoral degree at the deadline of the co-funded programme's call
- **Who applies?**
 - **Single legal entity** established in an EU Member State or HE Associated country.
 - A **minimum of three researchers** must be recruited.
- **Career Development Plan**
 - To be jointly established by the supervisor and each recruited researcher upon recruitment. Revised (and updated where needed) within 18 months

MSCA COFUND

- **Co-funding**

- Max **10 M€** per beneficiary per call (unchanged)
- The EU contribution covers **minimum remuneration** (70% living + mobility allowance) and can be used more **flexibly**

- **Duration**

- **Programme**: max. 60 months (unchanged)
- **Fellowship**: min 3 months
- **Secondments**: up to 1/3 of the fellowship duration

- Introduction of an MSCA Cofund **Seal of Excellence** for applications scoring $\geq 85\%$

5. EVROPSKA NOČ RAZISKOVALCEV

Oglejte si spored Noči raziskovalcev 2022 - Noč ima svojo moč

Projekt Noč ima svojo moč - Evropska noč raziskovalcev

Konzorcij partnerjev Ustanova Hiša eksperimentov, Institut »Jožef Stefan«, Kemijski inštitut, Tehniški muzej Slovenije, Geološki zavod Slovenije ter Botanični vrt Univerze v Ljubljani je skupaj sooblikoval dvoletni projekt »Noč ima svojo moč«.

Cilj projekta »Noč ima svojo moč« je zasnovati skupek aktivnosti, ki jih bomo izvedli v okviru Evropske noči raziskovalcev (ERN) v letih 2022 in 2023.

S projektom želimo doseči, da čim širši krog ljudi spozna raziskovalce in njihovo delo.

Noč raziskovalcev - 30. 9. 2022

Aktivnosti bodo obsegale festivale znanosti na glavnih trgih štirih mest, raziskovalne dneve v osnovnih in srednjih šolah, več poljudnih predavanj in delavnic v knjižnicah, domu za starejše, muzejih, ... ter odprta vrata v raziskovalnih ustanovah, centru znanosti in kulturnih ustanovah.

Oglejte si uvodni pozdrav in vabilo k sodelovanju:

Migrant legal STATUS diversity and diversity dynamics in European CITIES

Fact Sheet

Results in Brief

Reporting

Results

Objective

StatusCities will provide a comprehensive investigation of the city level implications of migrants being differentiated by a myriad of legal status tracks. Conceptually and empirically focussing on superdiversity and diversity dynamics – rather than cross-sectional configurations – the specific aim is to link debates about the national level management of migration with debates on urban migration-related diversities. This is extremely timely given unprecedented migration to Europe and especially to Europe's cities. Asking where migrants subject to different legal status conditions live and what their residential biographies look like, StatusCities will combine an analysis of both unique longitudinal register data and qualitative data derived through mobile-phone supported long term elicitation techniques. The former will be used to map and visualise migrant residential patterns in light of status differentiations, the latter to analyse city and neighbourhood level patterns by paying attention to individual mobility and sociality decisions at the time of legal status transitions. The project will be focused on four urban centres located in one of Europe's major conurbations the Dutch Randstad. The research will consider multiple scales of analysis through a focus on different types and differently sized cities and within them neighbourhoods that show a relatively high turnover of different status migrants. StatusCities will thus contribute knowledge and methodological innovation by drawing on debates from various disciplinary fields and using a sophisticated and innovative mixed methods approach. Research has not yet investigated how the multiplicity of status differences - with their associated eligibility criteria and the parameters of presence that they set out - are relevant to dynamic changes in migration-related diversity. With the current levels of migration StatusCities is devoted to filling this highly policy relevant knowledge void.
