

The **Research Executive Agency (REA)**, in collaboration with the European Commission's **Directorate General Education, Youth, Sport and Culture (DG EAC)**, is organizing the **Marie Skłodowska-Curie Actions (MSCA) Cluster Event on Cancer Research and Innovation** to be held on **18-19 March 2021**.

You can join this **virtual meeting** by registering at [WWW.MSCA-Cancer.eu](http://WWW.MSCA-Cancer.eu).

A select number of promising cancer research projects funded by the MSCA Programme have been invited to share their results and join us in exchanging ideas on how the European Union can improve its various policies in the fight against cancer.

As a participant, you will have the opportunity to listen to leading cancer researchers in the following areas:

- **Diagnostics support to clinicians**
- **Drug development and therapy**
- **Immunotherapy**
- **Prevention and personalised medicine**
- **Quality of life of patients and survivors**

We look forward to welcoming you to the online platform we have created to display keynotes, debates and exchanges.

Feel free to share this communication to interested people.

For any questions and comments, please contact: [REA-MSCA-cancer-cluster@ec.europa.eu](mailto:REA-MSCA-cancer-cluster@ec.europa.eu).
