Total subsidies - excluding investments / ha - EURO (SE605)
Remarks:

- Standard results are the main output from FADN
- Standard results should be more represented in the FADN-Committee
- Number of sample farms should be published in standard results, ranges are not acceptable and useful
- Total Utilised Agricultural Area sometimes seems strange concerning the big differences, more details are necessary
- Discussions concerning standard results on level type of farming and size class bring more understanding to each other
ANNEX
Economic farm size, > 500 ESU
