ELENCO DEI LABORATORI DI ANALISI FISICA E CHIMICA
RICONOSCIUTI DAL CONSIGLIO OLEICOLO INTERNAZIONALE
PER IL PERIODO DAL 1.12.2018 AL 30.11.2019

According to Decision DEC-III.7/107-VI/2018, adopted by the International Olive Council (IOC) on 21 June 2018, IOC recognition is awarded, subject to all the conditions established in this regard by each country, according to the indication of the type of recognition requested, and subject to annual review, to olive oil testing laboratories that:

- submit an application to the IOC Executive Secretariat;
- provide proof that they have been accredited by a national accreditation body, describing any accreditation awarded and specifying the date on which it was issued (or, provisionally, a declaration to the effect that they are taking steps to obtain laboratory accreditation);
- prove they are proficient in applying the testing methods recommended in the IOC trade standard for olive oil and olive-pomace oil by participating in a check test organised by the IOC Executive Secretariat.

During its autumn session the IOC Council of Members endorses the list of olive oil testing laboratories that are awarded recognition for the period running from 1 December to 30 November. The list is divided according to the type of recognition into:

• **public laboratories that issue test certificates at the request of third parties..** p. 3-13

- Recognition type A – Basic testing p. 3-5
- Recognition type B - Advanced testing p.6-12
- Recognition type C - Residues and contaminants testing p. 13

• **private laboratories that issue test certificates at the request of third parties..** p. 14-25

- Recognition type A – Basic testing p. 14-15
- Recognition type B - Advanced testing p. 16-22
- Recognition type C - Residues and contaminants testing p. 23-25

• **laboratories belonging to olive oil companies that analyse their own oils.....** p. 26-31

- Recognition type A – Basic testing p. 26
- Recognition type B - Advanced testing p. 27-30
- Recognition type C - Residues and contaminants testing p. 31

According to Decision DEC-13/103-V/2015 which the International Olive Council (IOC) adopted on 26 November 2015, IOC recognition is awarded, subject to annual review, to laboratories which are approved by the competent authority of their country as a laboratory responsible for the official control of virgin olive oils by sensory analysis, and which fulfil the following conditions:

- An application for recognition, transmitted by the competent authority that approved the laboratory for the sensory testing of virgin olive oils, has to be submitted to the IOC Executive Secretariat.
- The application for recognition has to be accompanied by proof that the laboratory holds accreditation for the sensory analysis of virgin olive oils according to the method adopted by the Council.
- The application also has to be accompanied by full details on the characteristics of the sensory testing laboratory: installations, equipment, activities, staff, position, experience and activity of the panel leader, membership of the panel of tasters, and average monthly number of tastings of virgin olive oils.
- The laboratory has to obtain a satisfactory evaluation in the periodic tests organised by the IOC to check the competence of panels undertaking the tasting of virgin olive oils.

During its autumn session the IOC endorses the list of olive oil taste panels that are awarded recognition for the period running from 1 December to 30 November.
