

Kočevska Reka, 16.10.2025

Dear Business Partner,

We would like to inform you that as of 16 October 2025, our company **Snežnik d. o. o.** has changed its name to **Fagus Slovenica d. o. o.**

The change of name is part of our long-term development and investment strategy, through which we are strengthening our position as one of the leading wood-processing companies in Slovenia and the wider region.

In the coming months, we will begin the construction of a new **energy and wood-processing complex** in Kočevska Reka, which will be among the most modern in Europe. The new sawmill will enable efficient, technologically advanced, and sustainable **processing of beech logs with high added value**, thereby contributing significantly to the development of the local environment and the entire region.

As a company operating within the Slovenski državni gozdovi d. o. o. (SiDG) Group, we remain committed to being a reliable, fair, and long-term partner to all stakeholders in the wood industry.

We invite you to visit our new website: www.fagus-slovenica.si.

All other company details, such as our address, tax number, and registration number, remain unchanged.

We sincerely thank you for your continued cooperation and trust. We look forward to further successful collaboration — now under our new name **Fagus Slovenica d. o. o.**

Kind regards,

Fagus Slovenica d. o. o.

Rok RUTAR, CEO
