Establish your Living Lab & consortium

NATIOONS manages an online management event on B2Match, enabling international stakeholders to meet online for creating partnerships and establish Living Labs or Lighthouses in line with the EU Mission: A Soil Deal for Europe.

The long-term **online event will be accessible from March 2023 to October 2024** to offer applicants the opportunity to schedule online meetings with potential project partners for the creation of urban, agro, post-industrial or forestry Living Labs and Lighthouses under the calls for proposals HORIZON-MISSION-2023-SOIL-01-08: Co-creating solutions for soil health in Living Labs and HORIZON-MISSION-2023-SOIL-01-09: Carbon farming in Living Labs. The tool is open to representatives from the public sector, scientific communities, private companies and citizen associations based in the EU Member States and Associated Countries covered by the Natioons project.

Create your account on the [b2match platform](#) and get in contact with international stakeholders potentially interested in joining you in the creation of a soil health Living Lab or Lighthouse to apply for the Horizon Europe calls. An online matching event will be accessible throughout all the duration of the Natioons project to offer applicants the opportunity to meet potential project partners for the creation of urban, agro, post-industrial or forestry Living Labs and Lighthouses under the EU Soil Mission.

The tool is open to representatives from the public sector, scientific communities, private companies and citizen associations based in the EU Member States and Associated Countries represented in the Natioons project.
