Performance and Evaluation

Performance at the training will be **continuously evaluated**. Participants will be graded at the end of the training per their skills and knowledge acquired as necessary for the participation in an EU EOM. EODS evaluates according to criteria which include:

The EODS evaluation of the participants mirrors the Guidelines for EU EOM Observers Evaluation.

Therefore, trainees' performance will be assessed along three scores:

- **Recommended:** Good performance. The participant demonstrates to fulfil all the criteria set above in a satisfactory manner and is ready to participate in EU EOMs in the position for which the training has been conducted.
 - **Recommended with qualifications:** Good performance, but with some skills needing further strengthening to be mentioned. Considering the identified areas for enhancement, the
-

participant is ready to participate in EU EOMs in the position for which the training has been conducted.

- **Not Recommended:** Unacceptable behaviour or misconduct during the training.

Evaluations will be posted on the trainee's Roster CV after the training, to assist the Focal Points and the European Commission in the selection process for EU Election Observation Missions. EODS will inform participants when their evaluations are posted.

Once the evaluation is posted on the Roster, training participants have five calendar days to officially appeal their evaluation by email to the EODS project director. Upon reception of the appeal, the EODS project director has five working days to send her/his final decision to the observer, with a copy to the European Commission FPI. The appellant can then appeal that decision within 10 calendar days to the European Commission FPI. Upon receipt of the observer's complaint, the FPI has 6 weeks to reply.

If the evaluated training participant refuses to accept the final decision of the EC/FPI on his/her evaluation, the evaluation will be uploaded to the roster with a comment 'observer did not accept the evaluation'.
