Splošni pogoji za ugotavljanje skladnosti merilnih instrumentov se nanašajo na certificiranje meril ter certificiranje procesov (tj.odobritev in nadzor zagotavljanja kakovosti s strani proizvajalcev meril) na podlagi certifikacijske sheme, ki jo izbere vložnik. Certifikacijske sheme temeljijo na modulih ugotavljanja skladnosti iz Pravilnika o merilnih instrumentih (Uradni list RS, št. 19/16 in 98/23), ki povzema Direktivo o merilnih instrumentih 2014/32/EU (MID), oziroma Pravilnika o meroslovnih zahtevah za neavtomatske tehtnice (Ur. list RS, št. 25/16), ki povzema Direktivo o neavtomatskih tehtnicah 2014/31/EU (NAWI), (v nadaljevanju: pravilnik), za katere Urad RS za meroslovje (v nadaljevanju: urad) izvaja postopke ugotavljanja skladnosti v sklopu svoje priglasitve (priglašeni organ 1376).

Urad vodi postopke ugotavljanja skladnosti ob smiselni uporabi določb Zakona o splošnem upravnem postopku.

Ugotavljanje skladnosti merilnih instrumentov urad izvaja na podlagi principa "domneve o skladnosti" iz pravilnika. Dostop do seznama harmoniziranih standardov in normativnih dokumentov je objavljen tudi na spletnih straneh urada.

Certifikacijsko razmerje med uradom in vložnikom je urejeno s temi splošnimi pogoji ter potrjeno zahtevo vložnika.
