The Secretariat of the International Atomic Energy Agency (IAEA) presents its compliments to the IAEA's Member States and has the honour to draw their attention to the **Technical Meeting on Fuel Failure in Normal Operation of Water Reactors: Experience, Causes and Mitigation** (hereinafter referred to as "event") to be held at the IAEA's Headquarters in Vienna, Austria, from **14 to 17 December 2020**.

The purpose of the event is to provide Member States with a forum to share data, experience and knowledge in the area of fuel failure during the normal operation of water reactors; and to facilitate the preparation of the IAEA Technical Document provisionally entitled *Fuel Failure in Normal Operation of Water Reactors: Experience, Causes and Mitigation*.

The attached Information Sheet provides further details of the event.

The event will be held in English.

Member States are invited to designate one or more participants to represent the Government at this event. Member States are strongly encouraged to identify suitable women participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event. The application for financial support should be made at the time of designating the participant(s) using the attached Grant Application Form (Form C).

It should be noted that compensation is not payable by the IAEA for any damage to or loss of personal property. The IAEA also does not provide health insurance coverage for participants in IAEA events. Arrangements for private insurance coverage on an individual basis should therefore be made. The IAEA will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the IAEA.

Designations should be submitted to the IAEA through the competent national authority (Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) not later than **17 August 2020** using the attached Participation Form (Form A). Completed and authorized Participation Forms should be sent either by email to: Official.Mail@iaea.org or by fax to: +43 1 26007 (no hard copies needed). Copies should be sent by email to the Scientific Secretary of the event, Mr Mikhail Veshchunov, Division of Nuclear Fuel Cycle and Waste Technology, Department of Nuclear Energy (Email: M.Veshchunov@iaea.org), and to the Administrative Secretary, Ms Nisha Nath-Sirimalwatta (Email: N.Nath-Sirimalwatta@iaea.org). The Scientific Secretary of the event will liaise with the participants directly concerning further arrangements, including travel details, as appropriate, once the official designations have been received.

Should Governments wish, in addition, to appoint one or more observers to assist and advise the designated participants, they are kindly requested to inform the IAEA of the names and contact details of any such observers by the above date. In accordance with the established rules, Governments are expected to bear the cost of attendance of any observers they may send to IAEA events. Compensation is not payable by the IAEA for any damage to or loss of observers' personal property or for illness, injury or death occurring while travelling to or in connection with their attendance at IAEA events.

The Secretariat of the International Atomic Energy Agency avails itself of this opportunity to renew to the IAEA's Member States the assurances of its highest consideration.

Technical Meeting on Fuel Failure in Normal Operation of Water Reactors: Experience, Causes and Mitigation

**IAEA Headquarters
Vienna, Austria**

14–17 December 2020

Ref. No.: EVT2002601

Information Sheet

Introduction

In spite of the low fuel failure rate in currently operating water cooled nuclear power reactors, there is a continued high level of interest in fuel failures, for two reasons. First, the problems and inconvenience caused by fuel failures can still be important for nuclear power plants' operation. Second, the generally accepted goal of achieving a zero failure rate requires detailed knowledge of existing failure mechanisms, their root causes and remedies.

Following the recommendation of the IAEA Technical Working Group on Fuel Performance and Technology and considering the importance of information exchange and co-ordination of national efforts in this area, an IAEA Technical Meeting (TM) bringing together specialists from Member States has been planned to share data, experience and knowledge on fuel failure during the normal operation of water reactors, and to discuss path forward for IAEA future activities.

Objectives

The purpose of the event is to provide Member States with a forum to share data, experience and knowledge in the area of fuel failure during the normal operation of water reactors, and to facilitate the preparation of the IAEA Technical Document provisionally entitled Fuel Failure in Normal Operation of Water Reactors: Experience, Causes and Mitigation.

Expected Outputs

The event will provide the basis for the preparation of an IAEA TECDOC compiling the papers presented during the event. It will also provide recommendations for future activities to support the collection of Member States' knowledge and expertise on fuel failure during the normal operation of water reactors.

Target Audience

The meeting is intended for operators of nuclear power plants, regulatory bodies, R&D and other organizations engaged in nuclear fuel design and operation. Participants should be actively involved in the subject of the meeting and have considerable experience in the relevant activities.

Working Language(s)

English

Structure

The Technical Meeting will be structured to include several technical sessions where the following subjects are dealt with: data, experience and knowledge in the area of fuel failure during the normal operation of water reactors, experimental studies and modelling.

Topics

The following topics will be included:

- overview of status and experience regarding fuel failures during normal operation;
- mitigation of failures by design and manufacturing;
- mitigation of failures/degradation (due to debris, crud, water chemistry, etc.) by plant operation;
- detection and monitoring of failures;
- performing experimental studies of fuel failure and degradation mechanisms;
- performing modelling and code development for analysis of fuel failures under normal operation conditions, accidental conditions, potential impact on fuel handling.

Participation and Registration

All persons wishing to participate in the event have to be designated by an IAEA Member State or should be members of organizations that have been invited to attend.

In order to be designated by an IAEA Member State, participants are requested to send the **Participation Form (Form A)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) for onward transmission to the IAEA by **17 August 2020**. Participants who are members of an organization invited to attend are requested to send the **Participation Form (Form A)** through their organization to the IAEA by above deadline.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Please note that the IAEA is in a transition phase to manage the entire registration process for all regular programme events electronically through the new InTouch+ (<https://intouchplus.iaea.org>) facility, which is the improved and expanded successor to the InTouch platform that has been used in recent years for the IAEA's technical cooperation events. Through InTouch+, prospective participants will be able to apply for events and submit all required documents online. National authorities will be able to use InTouch+ to review and approve these applications. Interested parties that would like to use this new facility should write to: InTouchPlus.Contact-Point@iaea.org.

The event is, in principle, open to all officially designated persons. The IAEA, however, reserves the right to limit participation in case this becomes necessary due to limitations imposed by the available seating capacity. It is therefore recommended that interested persons take the necessary steps to obtain their official designation as early as possible.

Papers and Presentations

Participants are expected to give presentations falling within the scope of topics listed above. Approximately 30 minutes will be allotted for each presentation, including floor discussion.

Participants who wish to give presentations are requested to submit an abstract of their work. The abstract will be reviewed as part of the selection process for presentations. The abstract should be in A4 page format, should not be more than one page and should not exceed 400 words. It should be sent electronically to Mr Mikhail Veshchunov, the Scientific Secretary of the event (see contact details below), not later than **17 August 2020**.

In addition, participants have to submit the abstract together with the **Participation Form (Form A)** and the attached **Form for Submission of a Paper (Form B)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) or their organization for onward transmission to the IAEA not later than **17 August 2020**.

The submission of a full paper implies that the author intends to participate in the event if it is accepted.

Full papers should be no more than 15 pages including figures and tables. Full papers should be prepared according to the guidelines provided in the enclosed **Instructions for the Preparation of Papers** and should be submitted to Scientific Secretary not later than **1 October 2020**. Final versions of the full papers should be submitted by **30 October 2020**, following the resolution of comments provided by the organizational committee.

In addition to the master (paper) copy, an electronic version of the paper (Word file) is necessary to ensure quality and timely issuance of the proceedings to be prepared and distributed in electronic format.

On the webpage of this event (<https://nucleus.iaea.org/sites/connect/NFEpublic/Pages/tm3.aspx>) updated news regarding the event will be posted and the electronic versions of the submitted papers will be available.

Expenditures and Grants

No registration fee is charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event.

The application for financial support should be made using the **Grant Application Form (Form C)** which has to be stamped, signed and submitted by the competent national authority to the IAEA together with the **Participation Form (Form A)** by **17 August 2020**.

Venue

The event will be held at the Vienna International Centre (VIC) where the IAEA's Headquarters are located. Participants must make their own travel and accommodation arrangements.

General information on the VIC and other practical details, such as a list of hotels offering a reduced rate for IAEA participants, are listed on the following IAEA web page:

<http://www-pub.iaea.org/iaeaevents/GeneralInfo/Guide/VIC>.

Participants are advised to arrive at Checkpoint 1/Gate 1 of the VIC one hour before the start of the event on the first day in order to allow for timely registration. Participants will need to present an official photo identification document in order to be admitted to the VIC premises.

Visas

Participants who require a visa to enter Austria should submit the necessary application to the nearest diplomatic or consular representative of Austria at least four weeks before they travel to Austria. Since Austria is a Schengen State, persons requiring a visa will have to apply for a Schengen visa. In States where Austria has no diplomatic mission, visas can be obtained from the consular authority of a Schengen Partner State representing Austria in the country in question.

Abstract

This is an example of how to format an abstract. The title is Times New Roman 10 point bold, indented by 1 cm. The text is Times New Roman 9 point, with a first line indent of 1 cm. The abstract is a single paragraph which may be up to 300 words long. It should not contain information not included in the paper. The abstract may not contain references, equations or the word ‘we’. Write ‘the paper’, not ‘this paper’.

1. INTRODUCTION

This is an example of how a paper for the Proceedings Series should be formatted. The text above shows how the running head, title, subtitle (if applicable), author names and affiliations, and abstracts should be formatted. The heading immediately above this paragraph is a first level paper heading; it is Times New Roman 10 point regular capitals. The body text of the paper is Times New Roman 10 point regular, with a first line indent of 1 cm.

Please use these examples to format your paper. Applying the styles saved in this document to your text should format it correctly. Your word processing software may also contain a tool such as a ‘format painter’ that will enable you to copy the formatting from the example text to your own text. Alternatively, the information given in this template should enable to select the correct format for each section.

2. ORIGINALITY, COPYRIGHT AND PUBLICATION

The text of a paper submitted to this conference must be original with any material from copyrighted works (including illustrations, tables, and text quotations) included with the permission of the copyright holder. The contributor should, therefore, make sure that any permissions and rights required to publish any third-party content have been obtained and that all published material is correctly referenced.

The content of a paper is expected to have been written by the stated authors and the paper itself must not have been published before and be under consideration for publication by another entity (if this is the case please contact the Conference Organizer for further information). All papers will be scanned to ensure originality; if they are found to contain non-original text, only their abstract will be included in the proceedings.

Papers will only be included in the proceedings if the IAEA Form B has been submitted prior to the conference. If the Form B is not received, only the abstract may be included in the proceedings, but this may also be omitted.

3. HEADINGS AND SUBHEADINGS

If you need to subdivide the sections of your paper, use the headings shown below. You can use second and third level paper headings. To subdivide further, please use lists numbered (a), (b), and so on, but this is usually not necessary in a paper of normal length.

3.1. Second level paper heading

A second level paper heading is Times New Roman 10 point bold, in sentence case.

3.1.1. Third level paper heading

A third level paper heading is Times New Roman 10 point italic, in sentence case.

4. PAGE AND SECTION BREAKS

If you need to move a heading to the following page, please use a page break (usually found in word processing software under the 'insert/page break' menu. Please do not press return several times to move text onto a new page.

5. TABLES

Tables must be numbered consecutively and include a table heading. There is no full stop at the end of the heading. IAEA style is to use table borders and lines sparingly. Tables must be mentioned (called out) in the text and should be inserted following the end of the paragraph in which they are mentioned, or on the next page if there is not enough space. Tables are formatted in Times New Roman 9 point regular. For an example, see Table 1.

TABLE 1. EXAMPLE TABLE

Column 1	Column 2	Column 3
Align text left	Centre text	Centre text
Align text left	Centre text	Centre text

6. FIGURES

The figures you use in your publication must be original. If they have been published elsewhere (even in other papers authored by you or one of your co-authors) they cannot be used unless a permission is obtained and sent with the paper.

The figures must be numbered consecutively and mentioned in the text in the order in which they are numbered, using the abbreviation Fig. They should be inserted into the paper without a border and immediately below the paragraph in which they are mentioned, or on the next page if there is no space. They should have a caption, which is set in Times New Roman 9 point italic; the caption should be centred if it is a single line or

aligned left if it is two lines or more long. An example of a caption can be seen below Fig. 1. Note the capitalization of ‘Fig.’ in the figure caption.

7. REFERENCES

In accordance with good academic practice, reference sources should be cited in the text to support the assertions it contains. IAEA style is to use numbered references in square brackets. There are different formats for sources such as books [1], internal reports [2], personal communication [3], unpublished data [4], single chapters from books [5], journal articles [6], websites and on-line databases [7], papers from a proceedings [8], presentations including slides and handouts [9], and INFCIRCs [10]. Sources ‘in preparation’ or ‘in press’ use these terms in place of the year. Titles are given in their original languages if these use Latin alphabets, or translated into English for languages that do not use Latin alphabets. Please see the reference list below for examples of how to format the sources numbered [1–11]. The text in the reference list is Times New Roman 9 point regular.

FIG. 1. Chart showing the number of words in each section of this example paper.

8. BIBLIOGRAPHY

A bibliography is an optional section. If a source is not cited in the text but may nevertheless be of interest to the reader, it can be included in a bibliography, which follows the reference list. Sources that appear in the reference list should not be included in the bibliography. Please see the example bibliography at the end of this paper. The text in the bibliography is Times New Roman 9 point regular.

9. FURTHER INFORMATION

9.1. Author affiliation

Put the email address after the affiliation of the corresponding author, whether he or she is the first author or not. Please put the name of the authors’ organization(s) in English. Do not give the organization’s street address or postal code. For international organizations, no country is given. Please use the name of the country as it is given in the IAEA Member State list (for example, use ‘Russian Federation’, not ‘Russia’).

If there is a long list of author names and some of them are from the same organizations or same States, please seek advice from the conference organizer on how to format such a list to save space.

9.2. Bulleted lists

If you use a bulleted list in your paper, please format it as below:

- First bullet point;
- Section bullet point;
- Third bullet point.

If you need to use subpoints, please use this format:

- First bullet point.
- Section bullet point.
 - First subpoint;
 - Second subpoint.
- Third bullet point.

Please note the punctuation at the end of the points.

9.3. Numbered lists

If you use a numbered list in your paper, please format it as below, noting the punctuation at the end of the points:

- (a) First bullet point.
- (b) Section bullet point.
 - (i) First subpoint;
 - (ii) Second subpoint.
- (c) Third bullet point.

Please use (a), (b), etc., unless your text refers to the points elsewhere as ‘the first point’, ‘the second point’ and so on — in this case, please use (1), (2), etc.

9.4. General formatting

Only the font Times New Roman should be used in the paper. The font Symbol should never be used in files intended for publication as it is not a Unicode font and letters may change during production (for example, μ Sv may print as mSv if the character μ is inserted in Symbol font).

Underlining should not be used. Bold and italic may be used for emphasis, but should be used sparingly. Paragraph line spacing is 12 point for 9 point text, 13 point for 10 point text and 14 point for 12 point text, as used in this example paper. Only one space is used following a full stop.

Footnotes¹ should be used only where necessary. They should be inserted at the end of each page, and not at the end of the paper as endnotes.

ACKNOWLEDGEMENTS

The heading of the acknowledgements section is Times New Roman 10 point bold capitals, centred. The acknowledgements section is an optional section and can be used to list funding bodies and other sponsors of the research, and to mention people who supported the research but whose contribution was not of a type to merit authorship of the paper.
