The Secretariat of the International Atomic Energy Agency (IAEA) presents its compliments to the IAEA's Member States and has the honour to draw their attention to the **Regional Training Course on Control of Nuclear Material in Use, Movement and Storage** (hereinafter referred to as "event") to be held virtually via Cisco Webex, from **8 to 10 December 2020**.

The purpose of the event is to provide participants with basic knowledge of nuclear material accounting and control, in order to enhance the security of nuclear material during use, storage and movement.

The attached Information Sheet provides further details of the event.

The event will be held in English.

Member States are invited to designate one or more participants to represent the Government at this event. Member States are strongly encouraged to identify suitable women participants.

Designations should be submitted to the IAEA through the competent national authority (Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) not later than **15 November 2020** using the attached Participation Form (Form A). Completed and authorized Participation Forms should be sent either by email to: Official.Mail@iaea.org or by fax to: +43 1 26007 (no hard copies needed). Copies should be sent by email to the Scientific Secretary of the event, Mr Robert Kimball Larsen, Division of Nuclear Security, Department of Nuclear Safety and Security (Email: R.Larsen@iaea.org), and to the Administrative Secretary, Mr Artemy Konstantinov (Email: A.Konstantinov@iaea.org). The Scientific Secretary of the event will liaise with the participants directly concerning further arrangements, as appropriate, once the official designations have been received.

The IAEA takes no responsibility for, and the provider of the virtual meeting services has represented and warranted that the Services shall not contain, and that no end user shall receive from the software used to hold the virtual meeting, any virus, worm, trap door, back door, timer, clock, counter or other limiting routine, instruction or design, or other malicious, illicit or similar unrequested code, including surveillance software or routines which may, or is designed to, permit access by any person, or on its own, to erase, or otherwise harm or modify any data or any system, server, facility or other infrastructure of any end user (collectively, a "Disabling Code").

The Secretariat of the International Atomic Energy Agency avails itself of this opportunity to renew to the IAEA's Member States the assurances of its highest consideration.

Regional Training Course on Control of Nuclear Material in Use, Movement and Storage

Virtual Event

8 to 10 December 2020

Ref. No.: EVT1906334

Information Sheet

Introduction

This course aims to provide assistance to Member States in the establishment of a proper nuclear material accounting and control (NMAC) system for nuclear security purposes in order to mitigate the threat posed by malicious insiders. The course will focus on the measures that underlie the evaluation of domestic NMAC techniques to ensure accounting for and control of all nuclear material in facilities.

Objectives

To provide participants with basic knowledge and skills related to the control aspects of NMAC identified in Nuclear Security Series 32-T (Technical Guidance), which are used to mitigate the threat posed by malicious insiders. The document describes the elements of a nuclear security programme that can be implemented at a nuclear facility, in coordination with the physical protection system, for the purpose of deterring and detecting the unauthorized removal of nuclear material. This course will cover the implementation of measures to control nuclear material, associated equipment and data.

Target Audience

The course is intended for participants from IAEA Member States that have at least one nuclear power plant or research reactor in operation or have active projects to develop such facilities. The participants should be staff who are responsible for designing, operating and/or assessing nuclear security systems, including nuclear material accounting and control (NMAC) components, physical protection of nuclear facilities, and nuclear security management and staff; operators and managers of NMAC systems; those preparing associated regulations; staff responsible for computer security at nuclear facilities; and staff from the competent authorities and related law enforcement agencies and express themselves in this language without difficulty.

Working Language(s)

English

Participation and Registration

All persons wishing to participate in the event have to be designated by an IAEA Member State or should be members of organizations that have been invited to attend.

In order to be designated by an IAEA Member State, participants are requested to send the **Participation Form (Form A)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) for onward transmission to the IAEA by **15 November 2020**. Participants who are members of an organization invited to attend are requested to send the **Participation Form (Form A)** through their organization to the IAEA by above deadline.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Organization

Scientific Secretary

Mr Robert Kimball Larsen

Division of Nuclear Security
Department of Nuclear Safety and Security
International Atomic Energy Agency
Vienna International Centre
PO Box 100
1400 VIENNA
AUSTRIA
Tel.: +43 1 2600 21148
Fax: +43 1 26007
Email: R.Larsen@iaea.org

Administrative Secretary

Mr Artemy Konstantinov

Division of Nuclear Security
Department of Nuclear Safety and Security
International Atomic Energy Agency
Vienna International Centre
PO Box 100
1400 VIENNA
AUSTRIA
Tel.: +43 1 2600 24886
Fax: +43 1 26007
Email: A.Konstantinov@iaea.org

Subsequent correspondence on scientific matters should be sent to the Scientific Secretary/Secretaries and correspondence on other matters related to the event to the Administrative Secretary.

Participation Form

Regional Training Course on Control of Nuclear Material in Use, Movement and Storage

Virtual Event

8 to 10 December 2020

To be completed by the participant and sent to the competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA, or National Atomic Energy Authority) of his/her country for subsequent transmission to the International Atomic Energy Agency (IAEA) either by email to: Official.Mail@iaea.org or by fax to: +43 1 26007 (no hard copies needed). Please also send a copy by email to the Scientific Secretary R.Larsen@iaea.org and to the Administrative Secretary A.Konstantinov@iaea.org.

Participants who are members of an invited organization can submit this form to their organization for subsequent transmission to the IAEA.

Deadline for receipt by IAEA through official channels: 15 November 2020

Representing following Member-State/ non-Member State/entity or invited organization:		
Family name(s): (same as in passport)	First name(s): (same as in passport)	Mr/Ms:
Institute Name:		
Institute Address:		
Tel. (Fax) Office/Mobile:		
Email:		
Date of birth (YYYY-MM-DD):	Place of birth:	
Nationality:	Passport number:	
Date/Place of issue:	Valid until:	

1. Education (post-secondary):

Name and place of institution	Field of study	Diploma or Degree	Years attended	
			from	to

2. Recent employment record (starting with your present post):

Name and place of employer/ organization	Title of your position	Type of work	Years worked from to	

3. Description of work performed over the last three years:

4. Relevance of the course:

How do you envisage applying the knowledge and/or experience gained from the course to your current work role?

5. Language ability:

The designating authority confirms that the participant is proficient in the language in which the course is to be held.

Yes

Date: **Signature of applicant:** _____

Date: **Name, signature and stamp of Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority** _____
