The Secretariat of the International Atomic Energy Agency (IAEA) presents its compliments to the IAEA's Member States and has the honour to draw their attention to the **International Training Course on the Physical Protection of Nuclear Material and Nuclear Facilities** (hereinafter referred to as "event"), which had to be postponed owing to the COVID-19 outbreak and will now be held in Albuquerque, NM, United States of America, from **21 August to 9 September 2022**.

The purpose of the event is to provide participants with a systematic methodology for the design and performance-based evaluation of integrated physical protection systems for nuclear facilities that are effective against the threat of sabotage and theft of nuclear material, and to familiarize participants with current concepts and technologies in the area of physical protection.

The attached Information Sheet provides further details of the event.

The event will be held in English.

Member States are informed that designations already received for this event will remain valid. Should Member States not have submitted any designations or wish to change their designation, they are invited to designate one or more participants to represent the Government at this event. Member States are strongly encouraged to identify suitable women participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event. The application for financial support should be made at the time of designating the participants using the attached Grant Application Form (Form C).

It should be noted that compensation is not payable by the IAEA for any damage to or loss of personal property. The IAEA also does not provide health insurance coverage for participants in IAEA events. Arrangements for private insurance coverage on an individual basis should therefore be made. The IAEA will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the IAEA.

Designations should be submitted to the IAEA through the competent national authority (Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) not later than **7 April 2022** using the attached Participation Form (Form A). Completed and authorized Participation Forms should be sent either by email to: Official.Mail@iaea.org or by fax to: +43 1 26007 (no hard copies needed). Copies should be sent by email to the Scientific Secretary of the event, Mr Arvydas Stadalnikas, Division of Nuclear Security, Department of Nuclear Safety and Security (Email: A.Stadalnikas@iaea.org), and to the Administrative Secretary, Ms Dagmar Dusic (Email: D.Dusic@iaea.org). The Scientific Secretary of the event will liaise with the participants directly concerning further arrangements, including travel details, as appropriate, once official designations have been received.

Should Governments wish, in addition, to appoint one or more observers to assist and advise the designated participants, they are kindly requested to inform the IAEA of the names and contact details of any such observers by the above date. In accordance with the established rules, Governments are expected to bear the cost of attendance of any observers they may send to IAEA events. Compensation is not payable by the IAEA for any damage to or loss of observers' personal property or for illness, injury or death occurring while travelling to or in connection with their attendance at IAEA events.

The Secretariat of the International Atomic Energy Agency avails itself of this opportunity to renew the IAEA's Member States the assurances of its highest consideration.

International Training Course on the Physical Protection of Nuclear Material and Nuclear Facilities

**Hosted by the
Government of the United States of America**

**through the
Sandia National Laboratories**

Albuquerque, NM, United States of America

21 August to 9 September 2022

Ref. No.: EVT2002641

Information Sheet

Introduction

Since its introduction in 1978, the three-week International Training Course on Physical Protection of Nuclear Material and Nuclear Facilities (ITC) is organized every 18 months by the International Atomic Energy Agency and the Department of Energy of the United States of America. To date, more than 900 participants from 73 countries attended the ITC. The ITC is considered the IAEA's flagship training on physical protection, and has evolved to reflect industry best practices and up-to-date technology for physical protection. This will be the 29th course to be conducted by the IAEA in cooperation with Sandia National Laboratories in Albuquerque, New Mexico, USA.

Objectives

The objective of the event is to provide a systematic methodology for the design and performance based evaluation of integrated physical protection systems for nuclear facilities that is effective against the threat of radiological sabotage and theft of nuclear and other radioactive material, and to familiarize professionals involved in the establishment of a State's physical protection regime with current concepts and technology. In addition, the course aims to enable the participants to establish and implement appropriate security programmes in their respective countries that are in line with the physical protection requirements laid down in the Convention on the Physical Protection of Nuclear Material and its 2005 Amendment, as well as in IAEA Nuclear Security Series No. 13, Nuclear Security Recommendations on Physical Protection of Nuclear Material and Nuclear Facilities (INFCIRC/225/Revision 5).

Target Audience

The course is intended mainly for persons who are responsible for designing and/or assessing physical protection systems, for operators and managers of such systems, for those preparing associated regulations and for representatives of the competent authorities. It is assumed that they will have a basic technical background in, and some experience of, physical protection. Representatives of other organizations may attend the course, as their needs require and their background permits, provided space is available. Member States are strongly encouraged to identify suitable women candidates.

Working Language(s)

English

Participation and Registration

All persons wishing to participate in the event have to be designated by an IAEA Member State or should be members of organizations that have been invited to attend.

In order to be designated by an IAEA Member State, participants are requested to send the **Participation Form (Form A)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) for onward transmission to the IAEA by **7 April 2022**. Participants who are members of an organization invited to attend are requested to send the **Participation Form (Form A)** through their organization to the IAEA by above deadline.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Participants are hereby informed that the personal data they submit will be processed in line with the [Agency's Personal Data and Privacy Policy](#) and is collected solely for the purpose(s) of reviewing and assessing the application and to complete logistical arrangements where required. Further information can be found in the [Data Processing Notice](#) concerning IAEA InTouch+ platform.

Expenditures and Grants

No registration fee is charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event.

The application for financial support should be made using the **Grant Application Form (Form C)** which has to be stamped, signed and submitted by the competent national authority to the IAEA together with the **Participation Form (Form A)** by **7 April 2022**.

Visas

Participants who require a visa to enter United States of America should submit the necessary application as soon as possible to the nearest diplomatic or consular representative of United States of America.

Additional Requirements

Designated participants are required to complete the Annex to the Nomination Form 'US Personal Information Form' on the last page of the Information Sheet together with their Designation Form. Designations submitted without the completed form will not be considered for this event.

Subsequent correspondence on scientific matters should be sent to the Scientific Secretary/Secretaries and correspondence on other matters related to the event to the Administrative Secretary.

Participation Form

International Training Course on the Physical Protection of Nuclear Material and Nuclear Facilities

Albuquerque, NM, United States of America

21 August to 9 September 2022

To be completed by the participant and sent to the competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA, or National Atomic Energy Authority) of his/her country for subsequent transmission to the International Atomic Energy Agency (IAEA) either by email to: Official.Mail@iaea.org or by fax to: +43 1 26007 (no hard copies needed). Please also send a copy by email to the Scientific Secretary D.Ladsous@iaea.org and to the Administrative Secretary D.Dusic@iaea.org.

Participants who are members of an invited organization can submit this form to their organization for subsequent transmission to the IAEA.

Deadline for receipt by IAEA through official channels: 7 April 2022

Representing following Member-State/ non-Member State/entity or invited organization:		
Family name(s): (same as in passport)	First name(s): (same as in passport)	Mr/Ms:
Institute Name:		
Institute Address:		
Tel. (Fax) Office/Mobile:		
Email:		
Date of birth (YYYY-MM-DD):	Place of birth:	
Nationality:	Passport number:	
Date/Place of issue:	Valid until:	

1. Education (post-secondary):

Name and place of institution	Field of study	Diploma or Degree	Years attended	
			from	to

2. Recent employment record (starting with your present post):

Name and place of employer/ organization	Title of your position	Type of work	Years worked	
			from	to

3. Description of work performed over the last three years:

4. Relevance of the workshop:

How do you envisage applying the knowledge and/or experience gained from the workshop to your current work role?

5. Language ability:

Enter your languages and your proficiency per Description

Mother tongue:		Proficiency Description:
Language:	Proficiency:	
		FLUENT (F): Speak, read and write nearly as well as mother tongue
		WORKING KNOWLEDGE (W): Speak, read and write nearly as well as mother tongue Engage freely in discussions, read and write more complex material
		LIMITED (L): Limited conversation, reading of newspapers, routine correspondence

Grant Application Form

International Training Course on the Physical Protection of Nuclear Material and Nuclear Facilities

Albuquerque, NM, United States of America

21 August to 9 September 2022

To be completed by the participant and sent to the competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA, or National Atomic Energy Authority) of his/her country for subsequent transmission to the International Atomic Energy Agency (IAEA) either by email to: Official.Mail@iaea.org or by fax to: +43 1 26007 (no hard copies needed).
