

Joint IAEA–GIF Workshop on the Safety of Non-Water Cooled Reactors

**IAEA Headquarters
Vienna, Austria**

30 May to 2 June 2023

Ref. No.: EVT2204905

Information Sheet

Introduction

The International Atomic Energy Agency (IAEA) and the Generation IV International Forum (GIF) have jointly committed to collaborate between their respective programmes, and share information in selected areas of mutual interest. One of the key areas of focus for both the GIF and the IAEA is the safety of liquid metal cooled fast reactors (LMFRs) – including sodium cooled fast reactors (SFRs) and lead cooled fast reactors (LFRs) – high temperature gas cooled reactors (HTGRs) and molten salt reactors (MSRs). A particularly important area of mutual interest is the harmonization of safety approaches, safety requirements, Safety Design Criteria (SDC) and Safety Design Guidelines (SDG), as well as the applicability of IAEA safety standards for the next-generation of advanced non-water cooled reactors (NWCRs) under development worldwide.

Within the framework of this collaboration, ten joint IAEA–GIF technical workshops on the safety of SFRs have been held since 2010 (the meetings organised since 2018 also covered LFRs). Two joint IAEA-GIF meetings on the safety of HTGRs (the meeting organised in 2022 also covered MSRs) have also been held.

The focus of this workshop will be twofold:

- i) Building on the outcome of previous abovementioned IAEA-GIF meetings on the safety of LMFRs, to provide a forum for the exchange of technical information on the development and implementation of SDC and SDG, developed since 2011 within the GIF, for LMFRs, and experiences in the application of IAEA design safety and safety assessment standards to LMFRs;

- ii) To provide a platform for the exchange of technical information on the safety approach in the design of, and application of IAEA design safety and safety assessment standards to, HTGRs and MSRs. Furthermore, the workshop will allow IAEA to collect feedback from the GIF representatives and other participants on a draft IAEA TECDOC on “Considerations on the Safety of High-Temperature Gas-Cooled Reactors and Molten Salt Reactors” currently under development.

Outcomes from this workshop will support the development of an international repository of knowledge to enhance global understanding of the safety related issues and the safety demonstration of NWCRs, and to contribute to the future development of the IAEA safety standards.

Objectives

The main objectives of this workshop are to:

- Share information on the development of SDC and SDG for LMFRs by the GIF and collect feedback on the implementation of SDG for SFRs and SDC for LFRs by the designers of innovative LMFRs concepts;
- Share information on the safety approach and on design solutions implemented in LMFRs in operation and on innovative design solutions under development for new LMFRs;
- Share experience on the safety approach and on design solutions under development for HTGRs and MSRs;
- Share experience in development of licensing frameworks for LMFRs, HTGRs and MSRs;
- Share experience in the application of IAEA design safety and safety assessment standards to LMFRs, HTGRs and MSRs; and
- Collect feedback on a draft IAEA TECDOC on “Considerations on the Safety of High-Temperature Gas-Cooled Reactors and Molten Salt Reactors”.

Target Audience

The event is targeted at professionals from organizations involved in the design of nuclear power plants (NPPs), operating organizations, nuclear regulatory authorities, technical support organizations, and research institutions that are engaged in activities related to or in support of the development or the regulation of LMFR, HTGR and MSR designs.

The event is open to representatives of all Member States with an active nuclear power programme, including those from embarking countries in an advanced stage of their nuclear programme.

Working Language(s)

English.

Expected Outputs

The meeting will contribute to the ongoing development of a TECDOC on “Considerations on the Safety of Liquid Metal Cooled Fast Reactors”.

The meeting will also provide a framework to collect results of the review by the GIF representatives of an IAEA TECDOC on “Considerations on the Safety of High-Temperature Gas-Cooled Reactors and Molten Salt Reactors.

Topics

Topics to be discussed will include:

- Experience in the consideration of SDG for SFRs and SDC for LFRs by the designers of LMFRs.
- Development and qualification of innovative design features, including experimental programmes supporting the validation of numerical computer codes supporting the design and safety assessment of LMFRs, HTGRs and MSR.
- Relevant operating experience related to LMFRs, HTGRs and MSR.
- Collecting knowledge addressing safety aspects of LMFRs, HTGRs and MSR (in operation, when applicable, as well as in the design phase), on topics such as:
 - Identification of safety functions;
 - Design basis for structures, systems and components important to safety;
 - Application of the concept of practical elimination of large or early radioactive releases;
 - Justification of meeting acceptance criteria for the different plants states;
 - Application of IAEA design safety and safety assessment standards to NWCRs
 - Outcomes and experiences of the regulatory review of NWCR.

Participation and Registration

All persons wishing to participate in the event have to be designated by an IAEA Member State or should be members of organizations that have been invited to attend.

In order to be designated by an IAEA Member State, participants are requested to send the **Participation Form (Form A)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) for onward transmission to the IAEA by **31 March 2023**. Participants who are members of an organization invited to attend are requested to send the **Participation Form (Form A)** through their organization to the IAEA by the above deadline.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Participants are hereby informed that the personal data they submit will be processed in line with the [Agency's Personal Data and Privacy Policy](#) and is collected solely for the purpose(s) of reviewing and assessing the application and to complete logistical arrangements where required. The IAEA may also use

the contact details of Applicants to inform them of the IAEA's scientific and technical publications, or the latest employment opportunities and current open vacancies at the IAEA. These secondary purposes are consistent with the IAEA's mandate.

Papers and Presentations

The IAEA encourages participants to submit papers and provide presentations on the work of their respective institutions that falls under the topics listed above.

Participants who wish to submit a paper and provide presentations are requested to submit an abstract of their work. The abstract will be reviewed as part of the selection process for presentations. The abstract should be in A4 page format, should extend to no more than two pages (including figures and tables), and should not exceed 1500 words. It should be sent electronically to Mr Simone Massara and to Mr Javier Yllera, the Scientific Secretaries of the event (see contact details below), not later than **31 March 2023**. Authors will be notified of the acceptance of their proposed presentations by **28 April 2023**.

In addition, participants have to submit the abstract together with the Participation Form (Form A) to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) or their organization for onward transmission to the IAEA not later than **31 March 2023**.

Expenditures and Grants

No registration fee is charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event.

The application for financial support should be made using the **Grant Application Form (Form C)**, which has to be stamped, signed and submitted by the competent national authority to the IAEA together with the **Participation Form (Form A)** by **31 March 2023**.

Venue

The event will be held at the Vienna International Centre (VIC), where the IAEA's Headquarters are located. Participants must make their own travel and accommodation arrangements.

General information on the VIC and other practical details, such as a list of hotels offering a reduced rate for IAEA participants, are listed on the following IAEA web page:

<https://www.iaea.org/events/evt2204905>

Participants are advised to arrive at Checkpoint 1/Gate 1 of the VIC one hour before the start of the event on the first day in order to allow for timely registration. Participants will need to present an official photo identification document in order to be admitted to the VIC premises.

Visas

Participants who require a visa to enter Austria should submit the necessary application to the nearest diplomatic or consular representative of Austria at least four weeks before they travel to Austria. Since Austria is a Schengen State, persons requiring a visa will have to apply for a Schengen visa. In States where Austria has no diplomatic mission, visas can be obtained from the consular authority of a Schengen Partner State representing Austria in the country in question.

IAEA Contacts

Scientific Secretaries:

Mr Simone Massara

Division of Nuclear Installation Safety
Department of Nuclear Safety and Security
International Atomic Energy Agency
Vienna International Centre
PO Box 100
1400 VIENNA
AUSTRIA
Tel.: +43 1 2600 22680
Fax: +43 1 26007 22680
Email: S.Massara@iaea.org

Mr Javier Yllera

Division of Nuclear Installation Safety
Department of Nuclear Safety and Security
International Atomic Energy Agency
Vienna International Centre
PO Box 100
1400 VIENNA
AUSTRIA
Tel.: +43 1 2600 26109
Fax: +43 1 26007 26109
Email: J.Yllera@iaea.org

Administrative Secretary:

Ms Ledia Lila

Division of Nuclear Installation Safety
Department of Nuclear Safety and Security
International Atomic Energy Agency
Vienna International Centre
PO Box 100
1400 VIENNA
AUSTRIA
Tel.: +43 1 2600 22588
Fax: +43 1 26007 22687
Email: l.lila@iaea.org

Subsequent correspondence on scientific matters should be sent to the Scientific Secretaries and correspondence on other matters related to the event to the Administrative Secretary.

Enclosure: Form for Submission of a Paper (Form B)

Participation Form

Joint IAEA–GIF Workshop on the Safety of Non-Water Cooled Reactors

IAEA Headquarters, Vienna, Austria**30 May to 2 June 2023**

To be completed by the participant and sent to the competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA, or National Atomic Energy Authority) of his/her country for subsequent transmission to the International Atomic Energy Agency (IAEA) either by email to: Official.Mail@iaea.org or by fax to: +43 1 26007 (no hard copies needed). Please also send a copy by email to the Scientific Secretary, Mr Simone Massara, Division of Nuclear Installation Safety, Department of Nuclear Safety and Security (Email: S.Massara@iaea.org) and to the Administrative Secretary, Ms Ledia Lila, (Email: l.lila@iaea.org).

Participants who are members of an invited organization can submit this form to their organization for subsequent transmission to the IAEA.

Deadline for receipt by IAEA through official channels: 31 March 2023

Family name(s): (same as in passport)	First name(s): (same as in passport)	Mr/Ms
Institution:		
Full address:		
Tel. (Fax):		
Email:		
Nationality:	Representing following Member State/non-Member State/entity or invited organization:	
If/as applicable:		
Do you intend to submit a paper?	Yes <input type="checkbox"/>	No <input type="checkbox"/>
Would you prefer to present your paper as a poster?	Yes <input type="checkbox"/>	No <input type="checkbox"/>
Title:		
I plan to attend virtually:	Yes <input type="checkbox"/>	No <input type="checkbox"/>

Participants are hereby informed that the personal data they submit will be processed in line with the [Agency's Personal Data and Privacy Policy](#) and is collected solely for the purpose(s) of reviewing and assessing the application and to complete logistical arrangements where required. The IAEA may also use the contact details of Applicants to inform them of the IAEA's scientific and technical publications, or the latest employment opportunities and current open vacancies at the IAEA. These secondary purposes are consistent with the IAEA's mandate. Further information can be found in the [Data Processing Notice](#) concerning IAEA InTouch+ platform.

Form for Submission of a Paper

Joint IAEA–GIF Workshop on the Safety of Non-Water Cooled Reactors

IAEA Headquarters, Vienna, Austria
30 May to 2 June 2023

To be completed by the participant and sent to the competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA, or National Atomic Energy Authority) of his/her country for subsequent transmission to the International Atomic Energy Agency (IAEA) either by email to: Official.Mail@iaea.org or by fax to: +43 1 26007 (no hard copies needed). Please also send a copy by email to the Scientific Secretary (S.Massara@iaea.org) and to the Administrative Secretary (l.lila@iaea.org).

Participants who are members of an invited organization can submit this form to their organization for subsequent transmission to the IAEA.

Deadline for receipt by IAEA through official channels: 31 March 2023

Title of the paper:		
If applicable: Abstract ID in IAEA-INDICO:		
Family name(s) and first name(s) of all author(s) (same as in passport(s)):	Scientific establishment(s) in which the work has been carried out	City/Country
1.		
2.		
3.		
Family name(s) and first name(s) of author presenting the paper (same as in passport):	Mr/Ms:	
Mailing address:		
Tel. (Fax):		
Email:		
I plan to attend virtually:		Yes <input type="checkbox"/> No <input type="checkbox"/>

I hereby agree to assign to the International Atomic Energy Agency (IAEA):

- the copyright; or
- the non-exclusive, worldwide, free-of-charge licence (this option is only for those authors whose parent institution does not allow them to transfer the copyright for work carried out in that institution) granting the IAEA world rights for the use of the aforementioned material in this and any future editions of the publication, in all languages, and in all formats available now, or to be developed in the future (digital formats, hard copy etc.).

Please note: If granting the licence mentioned above, please supply any copyright acknowledgement text required.

Furthermore, I herewith declare:

- that the material submitted to the IAEA is original, except for such excerpts from copyrighted works as may be included with the permission of the copyright holders thereof, has been written by the stated authors, has not been published before, and is not under consideration for publication by another entity;
- that any permissions and rights to publish required for third-party content, including but not limited to figures and tables, have been obtained, that all published material is correctly referenced; and
- that the material submitted to the IAEA does not contain any libellous or other unlawful statements and does not contain any materials that violate any personal or proprietary rights of any person or entity.
