Subject: TC Sponsored Participation on Focus on FDG PET/CT in Inflammatory and Infectious Diseases from 20 to 21 November in Vienna, Austria.

Dear National Liaison Officer / National Coordinator,

I am pleased to inform you that the International Atomic Energy Agency (IAEA) will sponsor the participants to attend EANM/ESMIT event on Focus on FDG PET/CT in Inflammatory and Infectious Diseases under the IAEA technical cooperation project RER6041, “Enhancing and Harmonizing Nuclear Medicine and Diagnostic Imaging Capabilities”.

The purpose of the event is to provide general insights into the use of [¹⁸F]FDG-PET/CT in suspected or manifest inflammation and infection, e.g. patient preparation and protocols.

Selection of participants will be in accordance with IAEA procedures. Member States are strongly encouraged to identify women participants.

The IAEA will provide non-local participants with a round-trip air ticket based on the most direct and economical route between the airport nearest the participant’s residence and Vienna or a travel allowance to purchase an air ticket. Travel details will be agreed with the participants upon receipt of their official nomination. Participants will also receive an allowance from the IAEA sufficient to cover their costs of lodging, daily subsistence and miscellaneous expenses for the duration of the event in line with IAEA rules and procedures.

We would appreciate receiving your country’s nominations by **20 October 2025** through the IAEA's InTouch+ platform (<https://Intouchplus.iaea.org>). Should this not be possible, applicants may download the Nomination Form for the course from the IAEA’s webpage. Completed forms must be endorsed by the relevant government authority and may be sent to the IAEA, preferably by email to Official Mail - IAEA Mail address Official.Mail@iaea.org, with copy to Ms Sibel Unlu s.unlu@iaea.org and Ms Angie Mieses A.Mieses-Concepcion@iaea.org. Please be advised that late nominations or replacements of participants after the closing date for nominations will not be accepted.

We look forward to receiving your early response.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Sibel', is positioned above the typed name.

Sibel Unlu

Enclosure: Information Sheet

**The 4th International Congress Imaging infections and inflammation
under the Regional TC Project RER/6/041**

Event Number	SP-TC-RER6041- EVT2500773
Event Title	TC Sponsored Participation on Focus on FDG PET/CT in Inflammatory and Infectious Diseases
Location	Vienna, Austria
Date	20 to 21 November 2025
Nomination Deadline	20 October 2025
Event Information	<p>Inflammation comes from the Latin word <i>inflammare</i>, to ignite or to set on fire – we want to ignite your interest in imaging inflammation and infection. Inflammatory and infectious diseases can be clinically challenging. Many are systemic with highly variable clinical presentations and sometimes vague and non-specific symptoms and findings. Association with implanted material like artificial heart valves, joint or vascular prostheses may hamper imaging or give rise to non-specific findings.</p> <p>LEARNING OBJECTIVES</p> <p>To provide general insights into the use of [18F]FDG PET/CT in suspected or manifest inflammation and infection, e.g. patient preparation and protocols</p> <p>To facilitate an open discussion on pro and cons of [18F]FDG PET/CT in suspected or manifest inflammation and infections</p>
Organizer	<p>European School of Multimodality Imaging & Therapy</p> <p>Link: Focus on FDG PET/CT in Inflammatory and Infectious Diseases - The European School of Multimodality Imaging & Therapy (ESMIT)</p>
Selection Criteria	Nuclear medicine specialists with basic experience in reading [¹⁸ F]FDG-PET/CT in inflammatory and infectious diseases.
