

KREMENJAČA, 1760

Material:

jeklo, les (orehovina)

Mere:

dolžina: 350 mm

Kremenjača je enostrelna prednjača s kremenskim celinom. Polni se spredaj, vžig in strel pa se izvedeta z iskrenjem kremenca. Vidnih oznak ni, razen številke 3 na hrbtnišču orožja.

FLINTLOCK PISTOL, 1760

Material:

steel, wood (walnut)

Dimensions:

length: 350 mm

Flintlock pistol is a single-shot, muzzle-loading pistol with a flintlock mechanism. The pistol is loaded through the muzzle, while ignition and firing occur through the sparking of the flint. It has no visible markings, except for the number 3 on the upper side next to the lock.
