

The Government's strategy regarding migration

Our view of migration is comprehensive, multi-layered and long-term. We include all aspects of migration:

Slovenia is a part of global migration trends. **Positive net migration** has been recorded in the last 19 years. The number of migrants arriving is higher than the number of people leaving the country.

The percentage of foreign nationals in Slovenia is **6,4%**

176,000 foreign nationals had either a valid residence permit or a residence registration certificate at the end of 2018. The majority of them are from Bosnia and Herzegovina, Kosovo and Serbia.

Between 1995 and the end of 2018, **818** third-country nationals were granted international protection.
